Simply better cared for.

MoDu®
The mobile bed shower
for a better quality of life.

[Developed by experts.](#)

[For professionals.](#)

MoDu® for care institutions.

Reduction in personnel costs.

Showering in bed is much faster with just one carer and without travel times. You save yourself the laborious and risky mobilization of patients for showering and cleaning the bathroom and shower bed.

Prevention of work-related illnesses.

With MoDu®, constant physical strain is massively reduced - no lifting, pulling or maneuvering of shower loungers / chairs and patients. And that means more quality of care in less time. The location-independent care system enables showering directly in the hospital bed, of course according to clinical hygiene requirements. A simple cleaning and hygiene concept as well as a wide range of reprocessing options for the system and the shower tray make daily use easier.

One cable. Two hoses. Infinitely simple.

MoDu® does not require any special infrastructure. A socket and hot water pipe are sufficient. Fill the water tank, prepare the shower tray and you're ready to go.

Adapts.

Thanks to MoDu®, no further modifications are necessary in your living area. MoDu® can be used as required or as a temporary solution without turning your home into a noisy construction site.

Cost under control.

You can purchase MoDu® for permanent use or rent it cost-effectively for temporary use - depending on your needs.

contact

Caregiver's best friend.

MoDu® is mobile when your patients are not.

With MoDu®, patients can be showered in their own care bed. Unsafe transfers with shower beds and shower chairs to the bathroom are a thing of the past.

MoDu® protects you and your patients.

Maneuvering bulky shower trolleys increases the risk of injuries and long-term consequences for caregivers. With MoDu® you can shower patients safely - directly in their own hospital bed.

How to take a shower. Only better.

Showering with a real hand shower is an incomparable feeling that you can comfortably give your patients with MoDu®. Washing hair is also easy and problem-free thanks to MoDu®.
